# CONTENTS

## Symposium on the Health Effects of Acid Aerosols

M. Lippmann. Background on health effects of acid aerosols.....	3
---	---

### Exposure

T. V. Larson. The influence of chemical and physical forms of ambient air acids on airway doses .....	7
P. J. Liroy and J. M. Waldman. Acidic sulfate aerosols: Characterization and exposure .....	15
K. Ito and G. D. Thurston. Characterization and reconstruction of historical London, England, acidic aerosol concentrations .....	35
J. D. Spengler, G. J. Keeler, P. Koutrakis, P. B. Ryan, M. Raizenne, and C. A. Franklin. Exposures to acidic aerosols .....	43
F. A. A. M. de Leeuw and H. J. van Rheineck Leyssius. Long-range transport modeling of air pollution episodes .....	53

### Epidemiology

F. E. Speizer. Studies of acid aerosols in six cities and in a new multi-city investigation: Design issues.....	61
D. V. Bates and R. Sizto. The Ontario Air Pollution Study: Identification of the causative agent .....	69
G. D. Thurston, K. Ito, M. Lippmann, and C. Hayes. Reexamination of London, England, mortality in relation to exposure to acidic aerosols during 1963-1972 winters .....	73
J. Ayres, D. Fleming, M. Williams, and G. McInnes. Measurement of respiratory morbidity in general practice in the United Kingdom during the acid transport event of January 1985 .....	83
H. E. Wichmann, W. Mueller, P. Allhoff, M. Beckmann, N. Bocter, M. J. Csicsaky, M. Jung, B. Molik, and G. Schoeneberg. Health effects during a smog episode in West Germany in 1985 .....	89
W. Jedrychowski and M. Krzyzanowski. Ventilatory lung function and chronic chest symptoms among the inhabitants of urban areas with various levels of acid aerosols: Prospective study in Cracow .....	101

### Toxicology

B. Holma. Effects of inhaled acids on airway mucus and its consequences for health.....	109
J. A. Last. Effects of inhaled acids on lung biochemistry .....	115
R. B. Schlesinger. Factors affecting the response of lung clearance systems to acid aerosols: Role of exposure concentration, exposure time, and relative acidity .....	121
J. M. Gearhart and R. B. Schlesinger. Sulfuric acid-induced changes in the physiology and structure of the tracheobronchial airways.....	127
M. T. Kleinman, R. F. Phalen, W. J. Mautz, R. C. Mannix, T. R. McClure, and T. T. Crocker. Health effects of acid aerosols formed by atmospheric mixtures .....	137

---

<b>M. O. Amdur and L. C. Chen.</b> Furnace-generated acid aerosols: Speciation and pulmonary effects .....	147
--	-----

### **Acute Pulmonary Responses**

<b>S. M. Bowes, III, B. L. Laube, J. M. Links, and R. Frank.</b> Regional deposition of inhaled fog droplets: Preliminary observations .....	151
<b>J. D. Hackney, W. S. Linn, and E. L. Avol.</b> Acid fog: Effects on respiratory function and symptoms in healthy and asthmatic volunteers .....	159
<b>J. R. Balmes, J. M. Fine, T. Gordon, and D. Sheppard.</b> Potential bronchoconstrictor stimuli in acid fog .....	163
<b>D. M. Spektor, B. M. Yen, and M. Lippmann.</b> Effect of concentration and cumulative exposure of inhaled sulfuric acid on tracheobronchial particle clearance in healthy humans .....	167
<b>J. Q. Koenig, D. S. Covert, and W. E. Pierson.</b> Effects of inhalation of acidic compounds on pulmonary function in allergic adolescent subjects .....	173
<b>M. E. Raizenne, R. T. Burnett, B. Stern, C. A. Franklin, and J. D. Spengler.</b> Acute lung function responses to ambient acid aerosol exposures in children .....	179

### **Review, Discussion, and Summary**

<b>C. M. Shy.</b> Review, discussion, and summary of epidemiological studies .....	187
<b>J. A. Graham.</b> Review, discussion, and summary: Toxicology .....	191
<b>L. J. Folinsbee.</b> Review, discussion, and summary: Acute pulmonary responses in humans .....	195
<b>R. E. Albert.</b> Commentary: Risk assessment for acid aerosols .....	201
<b>M. Lippmann.</b> Progress, prospects, and research needs on the health effects of acid aerosols .....	203

---

### **Workshop on Quantitative Models for Developmental Toxicity Risk Assessment**

<b>C. A. Kimmel, D. G. Wellington, W. Farland, P. Ross, J. M. Manson, N. Chernoff, J. F. Young, S. G. Selevan, N. Kaplan, C. Chen, L. D. Chitlik, C. L. Siegel-Scott, G. Valaoras, and S. Wells.</b> Overview of a workshop on quantitative models for developmental toxicity risk assessment .....	209
<b>V. M. Chinchilli and B. C. Clark.</b> Trend tests for proportional responses in developmental toxicity experiments .....	217
<b>W. J. Butler and L. A. Kalasinski.</b> Statistical analysis of epidemiologic data of pregnancy outcomes .....	223
<b>E. M. Faustman, D. G. Wellington, W. P. Smith, and C. A. Kimmel.</b> Characterization of a developmental toxicity dose-response model .....	229
<b>D. W. Gaylor.</b> Quantitative risk analysis for quantal reproductive and developmental effects .....	243

---

## Contributed Articles

<b>P. Gerde and P. Scholander.</b> Mass transfer rates of polycyclic aromatic hydrocarbons between micron-size particles and their environment—theoretical estimates .....	249
<b>L. S. Gold, T. H. Slone, and L. Bernstein.</b> Summary of carcinogenic potency and positivity for 492 rodent carcinogens in the carcinogenic potency database .....	259
<b>R. S. Narang, K. Swami, V. Stein, R. Smith, P. O'Keefe, K. Aldous, D. Hilker, G. Eadon, C. Vernoy, and A. S. Narang.</b> Thermally induced formation of polychlorinated dibenzofurans from Aroclor 1254-contaminated mineral oil .....	273
<b>M. T. Schechter, W. O. Spitzer, M. E. Hutcheon, R. E. Dales, L. M. Eastridge, N. Steinmetz, P. Tousignant, and C. Hobbs.</b> Cancer downwind from sour gas refineries: The perception and the reality of an epidemic .....	283
<b>R. M. Sedman.</b> The development of applied action levels for soil contact: A scenario for the exposure of humans to soil in a residential setting .....	291
<b>F. Perera, T. Brennan, and James R. Fouts.</b> Comment on the significance of positive carcinogenicity studies using gavage as the route of exposure .....	315
<hr/>	
<b>Errata</b> .....	323
<b>Published Volumes of EHP</b> .....	325
<b>Instructions to Authors</b> .....	327
